refrigeration

Cool convenience

Amana® refrigerators and freezers offer cool storage solutions that keep your fresh and frozen favorites close at hand and ready to use. Whether you prefer a top-freezer, side-by-side, bottom-freezer or french door, we've got one that fits your lifestyle and kitchen.

top-freezers

Classic arrangement

Amana® top-freezer refrigerators provide simple solutions that match your everyday food storage needs. Features like Spillsaver™ glass shelves, gallon door storage and crispers with humidity control update this traditional form with essential function so your favorites are ready to use.

CONTOURED DOORS

Open left, open right—with reversible swing doors, the choice is yours. We've also integrated the handles and hidden the hinges.

WINE RACK

Let guests pick from a wine list at your next dinner party. This convenient rack provides storage for five full-size bottles.

GARDEN FRESH™ CRISPER DRAWERS

Make that just-picked flavor last. Humidity-controlled crisper drawers help keep fruits and veggies fresh for longer.

SPILLSAVER™ GLASS SHELVES

Finally, you can stop crying over spilled juice. These shelves help keep the mess contained—and can be adjusted to meet your storage needs.

Q&A

Do you need a refrigerator for a room other than the kitchen?

Amana brand offers a variety of top-freezer sizes and colors that would be at home in the kitchen or the game room.

What are some of the "must have" features you need in a new refrigerator?

Our top-freezer refrigerators include features designed to make your life easier like Spillsaver™ glass shelves, gallon door storage and humidity-controlled crispers.

Where are the temperature controls in your current refrigerator?

Our top-freezer refrigerators feature up-front temperature controls that are easy to reach and adjust without moving food all around.

NOTE: Not all features available on all models.

Easy entertaining

Whether you're having a few friends over or throwing a neighborhood party, the Quick Tap™ entertainment refrigerator is there to make it all a little less work. A refillable beverage dispenser keeps everyone's favorite drink—mineral water, lemonade or your favorite margarita recipe—ready and waiting for your guests' empty glasses.

QuickTap™

POUR IT IN

Make sure the storage tank and valve are clean and securely in place—then add your favorite beverage.

BPA FREE • NON-TOXIC PLASTIC • NO BISPHENOL A • NO PHTHALATES

SERVE IT UP

Just press a glass against the dispenser lever and enjoy. The 3-liter capacity ensures there's more than enough of your favorite refreshment to share.

side-by-sides

ASD2522WRS

All-access pass

Amana® side-by-side refrigerators offer plenty of space for fresh and frozen food. An exterior dispenser provides quick and easy access to ice and water. Interior features like adjustable shelves and gallon door storage as well as clear door bins, crisper and deli drawers all provide versatile storage options within easy reach.

EXTERNAL DISPENSER

It's like having your very own water fountain. Featuring a PUR® filter, this dispenser quickly fills containers with great-tasting ice and water.

SPILLSAVER™ GLASS SHELVES

Spills happen, but cleaning them up shouldn't be a chore. These shelves help keep problems contained—and they adjust to meet your storage needs.

GARDEN FRESH™ CRISPER DRAWER

Make that just-picked flavor last. A humidity-controlled crisper drawer helps keep fruits and veggies fresh for longer.

ENERGY EFFICIENT

Save money on monthly utility bills. Replacing a non-qualified model with an ENERGY STAR® qualified one can cut energy bills by $165 over the lifetime of the refrigerator.*

Q&A

Are you tired of dealing with the hassle of bottled water, but still want a fresh-tasting alternative to tap water?

*Break out of the bottle with a refrigerator featuring an external water and ice dispenser with PUR® filtration. Save up to $600 per year in bottled water costs by drinking filtered water from your refrigerator.***

Where is the frozen food in your current refrigerator? Do you have enough space for the food you need to store?

A side-by-side makes storage for fresh and frozen foods easy and convenient. And it offers more storage for frozen food than most other refrigerator styles.

How often do you go to the grocery store for fresh fruits and vegetables?

The humidity-controlled Garden Fresh™ crisper drawer helps keep fruits and veggies fresh longer. The ability to adjust the humidity level in the drawer means you can match it to the fresh food currently stored there.

NOTE: Not all features available on all models.

*Source: www.energystar.gov **Based on average use of two 6-month, 200-gallon water filters versus purchasing the same amount of a leading brand bottled water.

bottom-freezers

ENERGY STAR® QUALIFIED

Save money on your monthly utility bills. Amana® bottom-freezer refrigerators meet the guidelines for energy efficiency.

ABB2224WES

Fresh on the flip-side

Amana® bottom-freezer refrigerators take convenience to a new level. The fresh food you use most often is on top where it's easy to see and use. Two different options for the lower compartment, either a freezer door or a freezer drawer, mean you can choose what fits best into your life and your kitchen.

SPILLSAVER™ GLASS SHELVES

Accidents happen, but cleaning them up shouldn't be a chore. These shelves help keep problems contained—and adjust to meet your storage needs.

EASYFREEZER™ PULL-OUT DRAWER

This two-level freezer drawer is easy to organize. Plus, it opens and closes smoothly—even when filled to the brim.

GARDEN FRESH™ CRISPER DRAWERS

Make that just-picked flavor last. Humidity-controlled crisper drawers help keep fruits and veggies fresh for longer.

GALLON DOOR STORAGE

Treat your refrigerator door like a beverage cart. Gallon-sized storage shelves make it easy to stock it with milk jugs, juice cartons or soda bottles.

Q&A

How much energy do you think your refrigerator uses? Would you like one that helped you save money on utility bills?

All Amana® bottom-freezer refrigerators are ENERGY STAR® qualified and CEE Tier 1 rated to help reduce your monthly utility costs.*

What frustrates you about your current frozen food storage?

The bottom-freezer lineup features two different freezer configurations that both provide easy organization. Pick a freezer door with a shelf and pull-out basket or a pull-out freezer drawer with two levels of basket storage.

What happened the last time something was spilled in your current refrigerator? Did the spill run onto more than one shelf?

Spillsaver™ glass shelves are designed to make those inevitable accidents a little easier to clean up. Glass shelves with sealed edges help keep spills contained to one shelf.

NOTE: Not all features available on all models.

french doors

AFI2538AES

Open door policy

Amana® french door refrigerators streamline food organization. The fresh food you use the most is up top behind twin doors that provide easy access and a stylish look. Additional options like the full-width deli drawer, clear crispers, as well as adjustable shelves and bins, make it easy to create customized food storage.

CHEF'S PANTRY™ DRAWER

This full-width drawer provides the perfect storage solution for deli trays or birthday cakes. A temperature control helps keep it all perfectly chilled.

EASYFREEZER™ PULL-OUT DRAWER

This two-level freezer drawer is so easy to organize, it makes your junk drawer jealous. Plus, it opens and closes smoothly—even when filled to the brim.

FRONTFILL™ ICE AND WATER DISPENSER

Step one: fill. Step two: chill. Quickly fill containers with ice, filtered water or both ice and water at the same time with this exterior dispenser.

BEVERAGE CHILLER™ COMPARTMENT

Located in the door, it keeps your favorite beverages up to 4˚F cooler than the rest of the refrigerator.

Q&A

What kinds of challenges do you face when trying to organize your current freezer?

The EasyFreezer™ pull-out drawer features two levels of basket storage for no-fuss organization of up to 120 lbs of frozen food.

How do you handle storing platters or other wide items in your refrigerator?

The full-width Chef's Pantry™ drawer provides the ideal solution for trays or sheet cakes as well as your everyday deli items.

Does your current refrigerator dispense water and ice at the same time?

The FrontFill™ ice and water dispenser allows you to fill glasses or pitchers with filtered water, ice or water and ice together.

Deepfreeze® freezers

Stock options

Expand your food storage capacity with the addition of an Amana® Deepfreeze® freezer. Whether you're all about buying in bulk or just don't like to run out of your favorites, a fully-stocked chest or upright freezer means you'll have more choices when someone says, "What's for dinner?"

FAST FREEZE SETTING

Freezes large amounts of food quickly and efficiently. The freezer provides freshly cooled air to drive the temperature 10 degrees colder than the lowest setting.

INTERIOR LIGHT

Flashlights are for power outages. The 40-watt interior light ensures that you can find what you're looking for, even in the basement or garage.

FREE-O-FROST™ OPERATION

Cold and frosty without the chance of accumulation. This freezer automatically prevents frost from building up on the interior surfaces.

UP-FRONT TEMPERATURE CONTROL

We've moved the temperature controls to the front of the freezer so you can easily change the settings.

PICK THE RIGHT REFRIGERATOR

Shopping for a new refrigerator can feel like a huge task. So we created this cheat sheet. We can't promise fun, but we can help make it easier for you.

To Do List

- ☐ Evaluate the storage provided in your current refrigerator. For example, do you have enough freezer space in your top-freezer model or would a side-by-side work better?
- ☐ Measure the space available for a refrigerator
- ☐ Check current refrigerator prices, either online or in retail circulars to help determine your budget
- ☐ Use the evaluation of your current model to pick a size, style and price for your new one
- ☐ Load up your new Amana® refrigerator with all your fresh and frozen favorites

Things to Think About

- Would it be nice for your household if you had an ice maker installed?
- Could your kitchen accommodate a larger or different style of refrigerator if you installed it in a different location?
- Would a refrigerator with a filtered water dispenser allow you to spend less on bottled water?

Notes

Terms of the Trade

ENERGY STAR® QUALIFIED
Refrigerators with this qualification use less energy than non-qualified models.

GALLON DOOR STORAGE
Deeper door shelves are large enough to accommodate gallon-sized beverage containers.

HUMIDITY-CONTROLLED VS. STANDARD CRISPERS
The ability to match the humidity level in the crisper to the preferred environment of the fruits or vegetables stored there helps to maintain freshness.

Short-order cooking

Amana® ranges and microwaves are designed to make cooking the meal almost as easy as eating it. Our no-fuss features and options help you work quickly and efficiently whether you're preparing an elaborate dinner or a midnight snack.

Amana

AMV2174VAS & AGR6011VDS

Easier than pie

Amana® gas and electric ranges are designed to meet your everyday cooking needs. Features like Easy Touch oven controls, Spillsaver™ upswept cooktops, convection cooking and self-cleaning ovens all help you get meals and snacks on the table quickly and easily.

EXTRA-LARGE OVEN WINDOW

An extra-large window helps you keep track of dinner without having to open the door.

GLASS-CERAMIC SPILLSAVER™ COOKTOP

The raised edges, and smooth surface of this cooktop help make sure those splashes and spills aren't impossible to clean up.

CONVECTION COOKING

Serve up good taste, faster. The convection fan circulates air inside the oven, evenly baking your food in less time than a standard oven.

CONTINUOUS GAS GRATES

We've got it covered. An additional grate fits between the burner grates, creating a continuous surface and providing a place for hot pots to rest.

Q&A

How often do you clean your current oven? Is it a difficult task?

Our ranges with the self-cleaning feature offer the option of selectable heat levels. This way you can choose lower levels for light soils and higher heat for the heavy buildup.

Does your apartment or loft have a small kitchen that can't accommodate a full-size range?

Our 20" ranges offer the largest oven capacity for this size range in the industry. Plus, broilers, elements and burners help you cook your favorites and still fit in your abbreviated kitchen space.

Does your current range allow you to program the baking start time?

The Delay-Bake oven control lets you prep the meal on your time schedule and still have it ready for dinner on time.

microwaves & ventilation hoods

AMV2174VAS & AER5830VAS

Over the top

An Amana® over-the-range microwave can help you streamline cooking functions. This combination of microwave and kitchen hood not only adds quick cooking options but also helps protect the surfaces in your kitchen by removing smoke, moisture and grease from the air.

SENSOR COOKING

Cook and reheat. Don't worry, we won't overdo it. Sensors monitor humidity levels and automatically adjust time for excellent results.

HIDDEN VENT

Our hidden agenda is essential design and performance. Over-the-range microwaves feature vents that are out of sight for a sleek look and easy clean up. Plus, a charcoal filter reduces odors.

LARGE CAPACITY

It's a perfect fit. The microwave interior easily holds and effectively heats your favorite recipe, even if it's in a 9" x 13" dish.

TOUCHMATIC® CONTROL SYSTEMS

Program your microwave to cook with ease. These simple keypads make choosing the right cooking options simple.

Q&A

Is your current microwave a glorified popcorn popper? Do you wish it had more cycles and options to choose from?

For more than 40 years, Amana® microwaves have provided fast food options. Whether you choose an over-the-range or countertop microwave, that tradition continues today. Multiple cycles, sensor cooking and reheating and one-touch cycle selection keep you ready for the next snack attack.

Where is the microwave in your kitchen? Would you like more workspace on the counter?

Create some wide open space with an Amana® over-the-range microwave. Put it above your range to create a Clever Combo cooking center, keeping your cooking activity in one convenient spot and creating more space for the mail to pile up.

What type of ventilation do you have in your kitchen?

Ventilation is more than an optional item. Smoke, heat, grease and moisture from cooking can damage cabinet, countertop and wall surfaces in your kitchen. An over-the-range microwave combines two appliances in one for maximum practicality.

NOTE: Not all features available on all models.

PICK THE RIGHT COOKING APPLIANCE

Shopping for a new range or microwave can feel like a huge task. So we've created this cheat sheet. We can't promise fun, but we can help make it easier for you.

To Do List

- ☐ Make a short list of likes/dislikes about your current range or microwave
- ☐ Measure the space available for a range
- ☐ Browse Amana.com to learn average product prices and help you determine your budget
- ☐ Using your likes/dislikes list pick 3-5 "must have" features for your new appliance
- ☐ Take your measurements, likes/dislikes list and feature list when you go shopping for your new Amana brand appliance

Things to Think About

- Do you currently have ventilation, either a hood or a microwave/hood, above your range? Make sure that the power level of the system will match your new range.
- Would an over-the-range microwave make cooking more convenient than your current countertop model?
- Is this the time to upgrade your entire kitchen with a suite of affordable Amana® appliances?

Notes

Terms of the Trade

SMOOTH-TOP VS. COIL ELEMENT ELECTRIC COOKTOPS
Smooth-top glass cooktops are easy to keep clean and provide a sleek look. Traditional coil elements are available on lower priced electric range models.

LOWER/DRAWER VS. IN-OVEN BROILERS
Broiler location varies on different gas range models. Some feature a drop-down or drawer broiler below the oven compartment while others offer in-oven broiling like electric ranges do.

CONVECTION COOKING
Convection ranges have an additional fan and/or element in the oven cavity to help circulate heat and maintain even temperatures during baking and roasting. Convection settings typically require less cooking time than standard baking or roasting.

Get dishes done

Eliminate prewashing and rewashing from your daily routine. Doing the dishes with an Amana® dishwasher makes this task a simple load-and-go exercise that results in clean dishes all set for the next meal.

i'm unique

ADB1400AWS

Skip the paper route

With an Amana® dishwasher there's no need to long for the convenience of disposable dishes. The CleanPlate™ wash system powers through sticky messes like oatmeal and pasta sauce so you don't have to prerinse or rewash. Flexible rack designs and simple cycle selections make meal cleanup a snap.

TALL TUB INTERIOR

Fill tall orders. This tub provides room for items that are too big to fit in a standard dishwasher tub.

CLEANPLATE™ WASH SYSTEM

The CleanPlate™ wash system uses high water pressure and high water flow to power off those leftover bits.

ENERGY STAR® QUALIFIED

Save money each month on your utility bills. All of our dishwashers are ENERGY STAR® qualified. Select models use up to 57% less energy and 37% less water* than a non-qualified dishwasher.

ANTIMICROBIAL COMPONENT PROTECTION

Built-in during the manufacturing process antimicrobial component protection helps inhibit the growth of stain- and odor-causing bacteria on the silverware baskets.

Q&A

Can you fit an entire meal's dishes in your current dishwasher?

An Amana® tall tub dishwasher holds more dishes than a standard-sized dishwasher. Plus, there's just enough room for that odd-shaped item you'd rather not wash by hand.

Would you like a dishwasher with components that stay cleaner between cleanings?

On select Amana® dishwashers antimicrobial component protection is built into the silverware baskets during manufacturing to help inhibit the growth of stain- and odor-causing bacteria.

What kind of dishwasher do you currently own? How old is it?

Our dishwasher lineup offers both standard tub and tall tub options to fit your needs and budget. All Amana® dishwashers are ENERGY STAR® qualified to help save you money on monthly utility bills.

NOTE: Not all features available on all models.

PICK THE RIGHT DISHWASHER

Shopping for a new dishwasher can feel like a huge task. So we've created this cheat sheet. We can't promise fun, but we can help make it easier for you.

To Do List

- ☐ Write down the likes and dislikes about your current dishwasher
- ☐ Measure the space for a new dishwasher
- ☐ Check current dishwasher prices, to help determine your budget
- ☐ Using the likes/dislikes list, pick 3-5 "must have" features for your new dishwasher
- ☐ Visit Amana.com to find an Amana brand retailer near you
- ☐ Take your measurements, likes/dislikes list and feature list when you go shopping

Things to Think About

- Is your dishwasher in the most convenient spot in your kitchen? Maybe now is the time to move it, so your day-to-day tasks flow better.
- Now might be the perfect time add a garbage disposal in your kitchen since a plumber and electrician may be there to install the dishwasher.

Notes

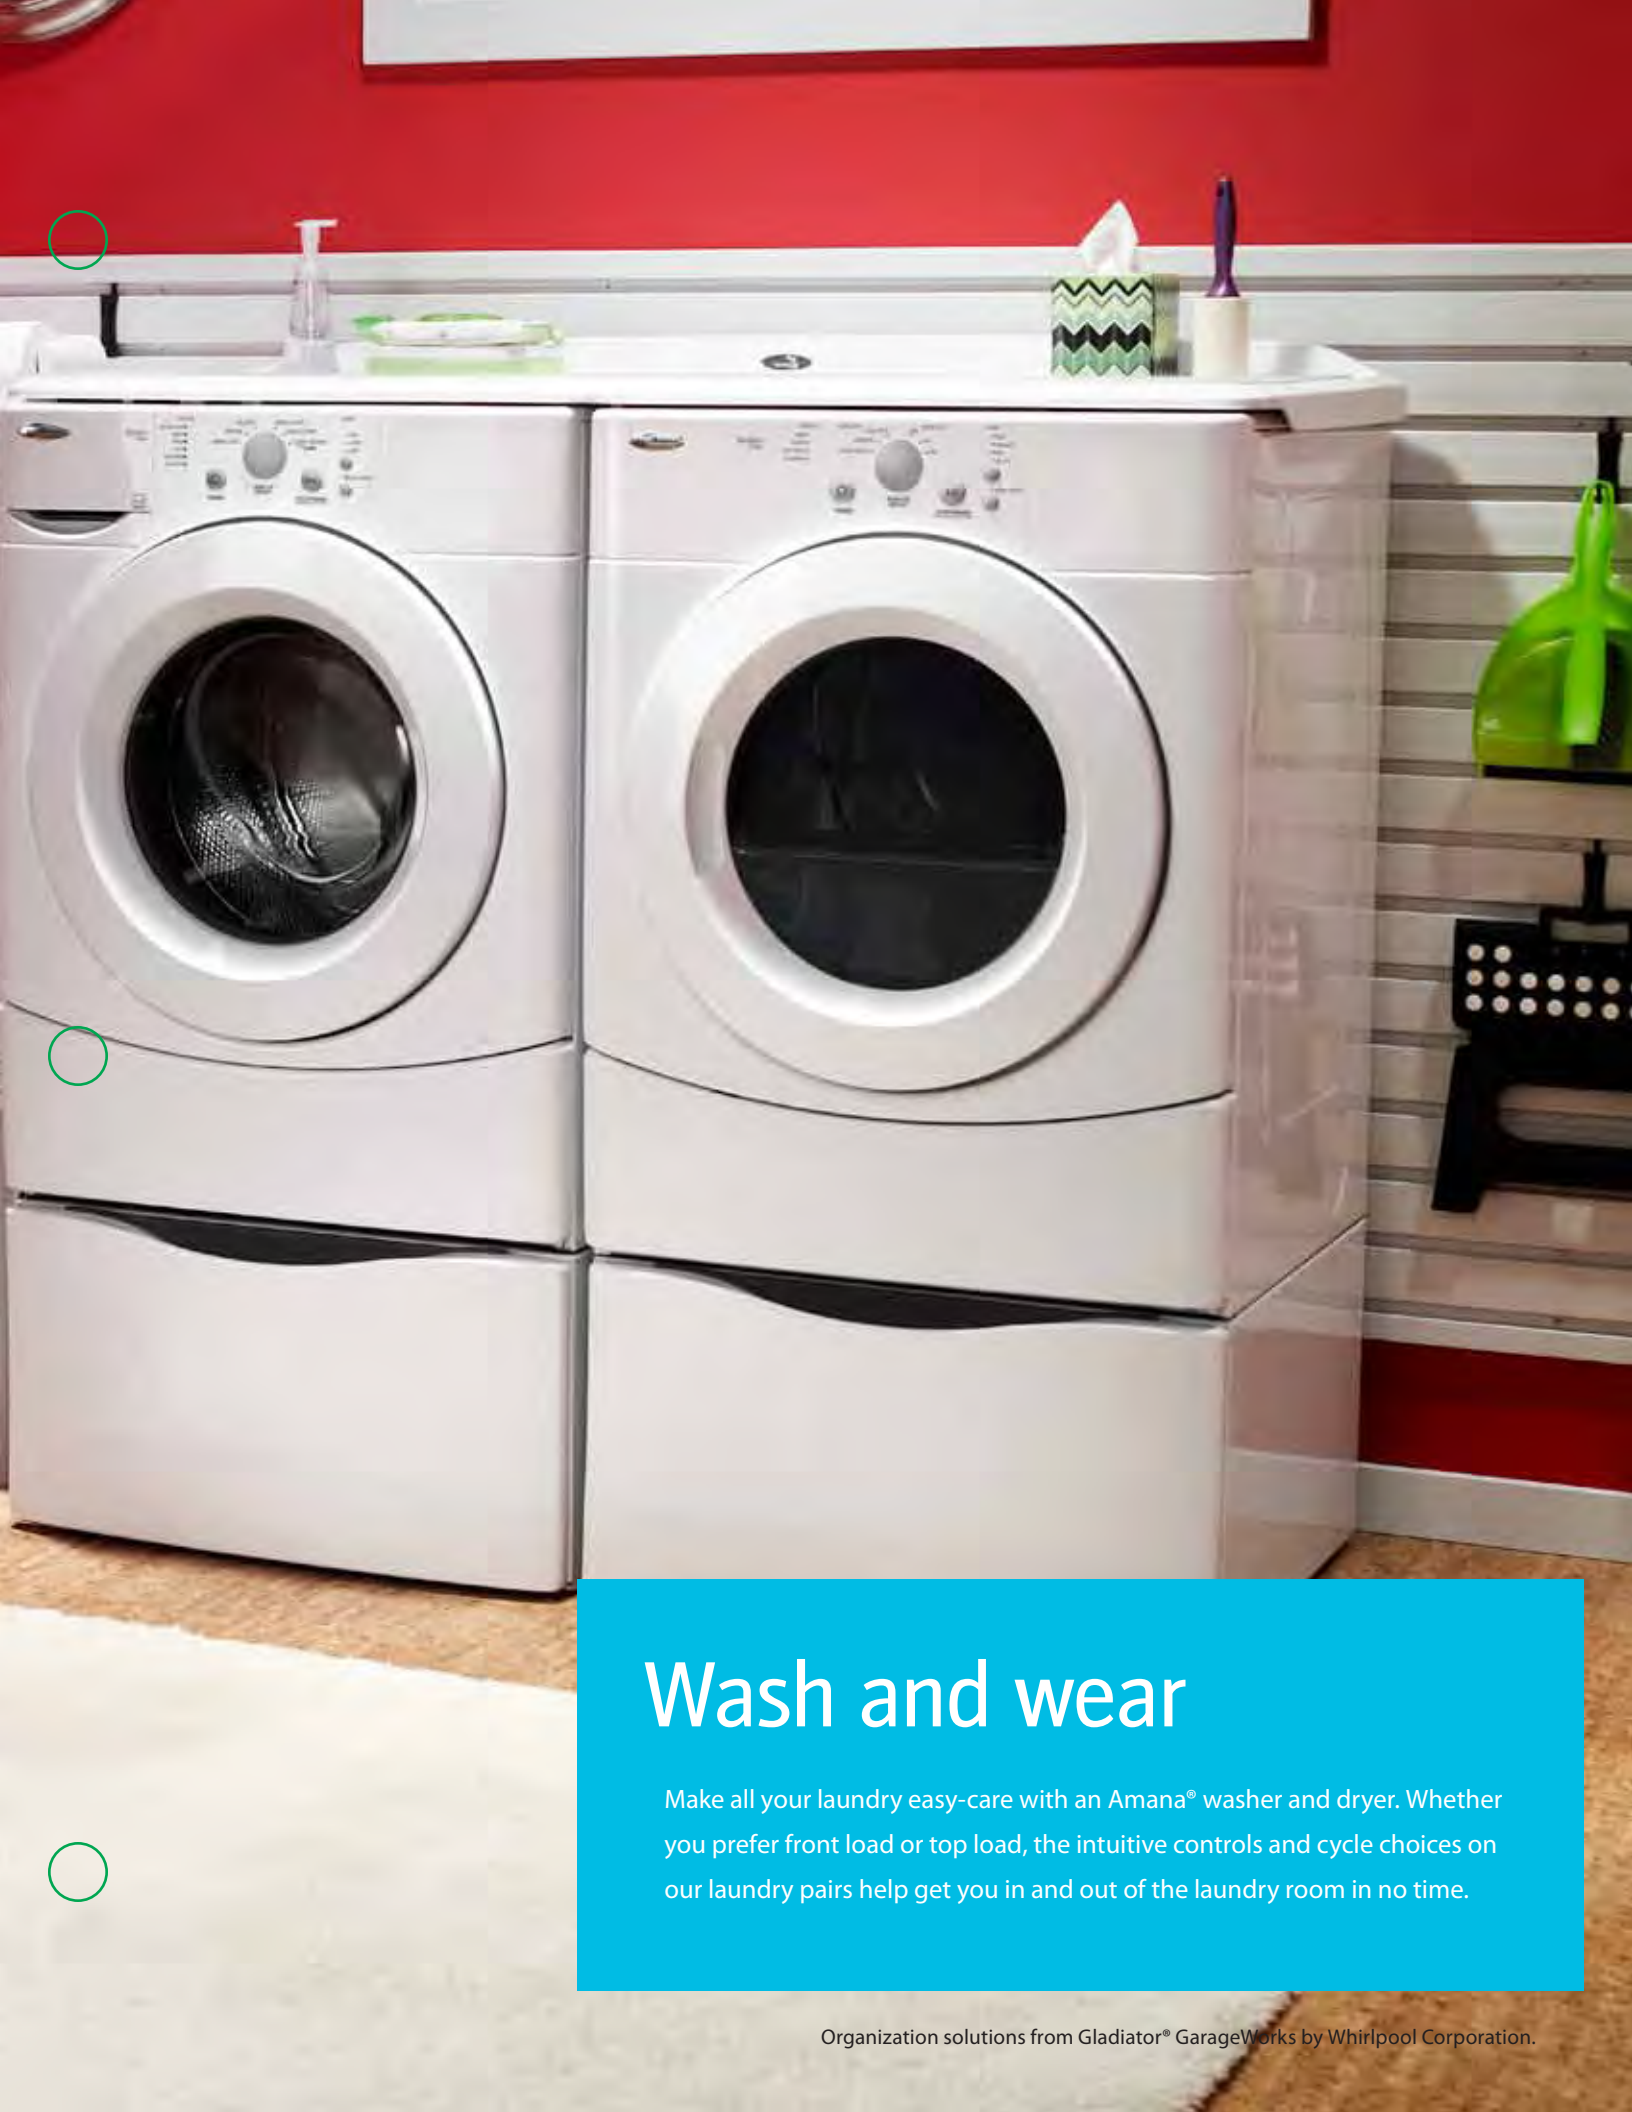
Terms of the Trade

ENERGY STAR® QUALIFIED
Dishwashers with this qualification use less water and energy than non-qualified models.

IN-RACK VS. IN-DOOR SILVERWARE BASKETS
Standard silverware baskets typically fit in one spot in the lower rack. Baskets that fit in either rack offer better loading flexibility. In-door silverware baskets fasten to the door leaving both racks free for dishes.

TOWER-FEED VS. DIRECT-FEED WASH SYSTEMS
Tower-feed wash systems disperse water through a tower that extends up through the racks making the center portions inaccessible. Direct-feed wash systems use wash arms above or below the racks creating more usable space for dishes. Dishwashers with direct-feed wash systems are typically higher in price than tower-feed models.

laundry



Wash and wear

Make all your laundry easy-care with an Amana® washer and dryer. Whether you prefer front load or top load, the intuitive controls and cycle choices on our laundry pairs help get you in and out of the laundry room in no time.

Organization solutions from Gladiator® GarageWorks by Whirlpool Corporation.

top load

Goodbye, slot machines

Make those trips to the laundromat a distant memory with a new Amana® top load laundry pair. Our washers and dryers help you create your own convenient laundry space so that keeping up with the laundry isn't the chore it used to be.

ANTIMICROBIAL COMPONENT PROTECTION

Built into the tub ring, antimicrobial component protection helps keep your washer cleaner between cleanings by resisting the growth of stain- and odor-causing bacteria.

SUPER CAPACITY

The only thing that should be hanging out in your laundry room are your recycling bins. That's why top load laundry pairs are made totally spacious to fit more in every load.

WRINKLE PREVENT OPTION

Keep those pesky creases from settling into dry clothes. This option keeps the dryer tumbling intermittently without heat when you can't get to the load to fold it right away.

AUTOMATIC TEMPERATURE CONTROL

Sensors monitor the flow of incoming water, adjusting as needed to maintain the temperature you selected and keep cleaning consistent.

Q&A

Is it often a challenge to load and unload your current laundry pair? Do you wrestle with big, bulky items like towels and sheets?

Stop the struggle with an Amana® top load laundry pair. The washer lid and the side-swing dryer door feature wide openings. You can even reverse the way the dryer door opens for extra convenience.

Does your current dryer cook your clothes? How often do items come out just a little bit smaller?

Don't worry, we've got it under control—Automatic Dryness Control. Amana® dryers monitor temperatures so you don't have to. Clothes get the attention they need and come out dry—but not smaller.

How do you keep your washer clean?

Amana® top load washers have antimicrobial component protection built into the tub ring to help keep them cleaner between cleanings. Added during the manufacturing process, it helps resist the growth of stain- and odor-causing bacteria on the treated washer components.

NOTE: Not all features available on all models.

AMANA BRAND WAS THE FIRST IN THE UNITED STATES TO INTRODUCE ANTIMICROBIAL COMPONENT PROTECTION IN TOP LOAD WASHERS IN 2006.

See page 73 for feature glossary and complete product dimensions. For more information go to Amana.com

Front load

ENERGY STAR® QUALIFIED

Save money, water and energy with an Amana® front load washer. This washer has a CEE Tier 3* rating and uses up to 73% less water and 76% less energy helping you save up to $1,000 on utility costs over the life of the washer.**

Shown with optional pedestals XHP1550VW & worksurface MW29000TW.

Shorten the laundry list

The Amana® front load laundry pair is designed to help you spend less time in the laundry room and not worry about falling behind. The washer and dryer both offer super capacities that hold more clothes per load for fewer loads per week. Plus, Touch and Go™ controls make it easy to load 'em up and move on to something fun.

SUPER CAPACITY

With a 4.0 cu. ft. I.E.C. equivalent† capacity washer and a 6.7 cu. ft. capacity dryer, there's room for more in every load so you'll do fewer loads per week.

TOUCH AND GO™ ELECTRONIC CONTROLS

This control panel makes it easy to start a load and get on with your day. A quick push of the buttons selects cycles and options.

AUTODRY SYSTEM

The AutoDry systems uses up to 10% less energy†† with sensors that monitor the dryness level and temperature, automatically stopping the cycle when fabrics are dry.

EVENSPIN VIBRATION CONTROL™

A 5-point suspension system stabilizes the wash basket during the wash cycle for reduced vibration and noise. Now your washer can go places it never dreamed of—upstairs, downstairs or even near the bedrooms.

Q&A

Can you add an item after your current washer has started the cycle? Do you have to run small loads because you forgot to add a necessary item when the cycle began?

The add-a-garment option lets you know when it's safe to make last-minute substitutions or additions to the laundry lineup.

How much room do you have for a laundry pair? Is it located in a convenient spot for your household?

The Amana® front load laundry pair offers flexible installation options including placing it under a countertop or for smaller spaces with the dryer stacked on top of the washer.

How much noise, vibration and disruption does your current washer cause in your household?

The vibration control system built into this laundry pair is designed to minimize disruption in your home. It also makes it possible for you to install this pair in a more convenient location, such as in the main living area or upstairs near the bedrooms.

PICK THE RIGHT LAUNDRY PAIR

Shopping for a new washer or dryer can feel like a huge task. So we've created this cheat sheet. We can't promise fun, but we can help make it easier for you.

To Do List

- ☐ Make a short list of likes/dislikes about your current laundry pair
- ☐ Measure the space available for a washer and dryer
- ☐ Check current prices online or in retailer circulars to help determine your budget
- ☐ Using your likes/dislikes list, space available and budget, decide whether you want a top load or front load pair
- ☐ Take your measurements and likes/dislikes list when you go shopping at your nearest Amana brand retailer

Things to Think About

- Is your laundry space conveniently located? Would it be easier to keep up with the laundry if you moved it to another place?
- Manufacturers create washer/dryer pairs to work together. To get the most out of a new washer or dryer it's best to purchase the matching product at the same time.
- Wouldn't a new Amana® laundry pair look great in your laundry space?

Notes

Terms of the Trade

ENERGY STAR® QUALIFIED
Washers with this qualification use less water and energy than non-qualified models.

TOP LOAD VS. FRONT LOAD WASHERS
Top load washers offer traditional styling and typically lower prices. Most top load washers feature an agitator in the tub which reduces capacity compared to front load models. Front load washers offer increased capacity and are able to clean using less water and energy.

CLEAN WASHER CYCLE
Front load washers need a monthly cleaning to remove detergent residue from inside the wash basket. This specialized cycle makes it easy to care for your washer.

WRINKLE PREVENT OPTION
An additional setting on dryers that helps prevent wrinkles from setting into dry clothes when you can't remove them from the dryer right away.

Refrigeration Glossary

Adjustable Door Bins
Move these bins up or down to fit your food. In select models, clear bins make it easy to keep track of small containers.

Auto Night Light
A night light on the ice and water dispenser minimizes surprises when your kitchen is dark.

Beverage Chiller™ Compartment
Located in the door, it keeps your favorite beverages up to 4°F colder than the rest of the refrigerator.

Can Rack
Store beverage cans or other small containers, like yogurt, in the refrigerator door for quick access.

Chef's Pantry™ Drawer
This full-width drawer holds everything from large trays or platters to daily deli foods. A temperature control helps keep the contents perfectly chilled.

Child Lockout
There's no need to worry about checking ID. With a child lockout feature on the dispenser of the Quick Tap™ entertainment refrigerator it's easy to prevent unintended dispensing by children or pets.

Contoured Door
Rounded edges and hidden hinges create a seamless look that lasts.

Control Lockout
Locks the controls to prevent unintended use of the dispenser.

Dairy Center
Dedicated storage space for dairy food like butter and yogurt help make sure they are easy to find.

Deli Drawer
Turkey and swiss? Keep track of deli meat and cheese by storing it in this clear drawer.

Door Open Alarm
Close the door! This alarm lets you know when it has been open for too long.

Dry-Erase Door Finish
From lists to doodles, this finish lets you write where you usually can't—on the doors of your refrigerator and freezer. Just remember to always use dry-erase markers. They wipe off easily.

EasyClose Drawer Track System
This self-closing feature automatically pulls the EasyFreezer™ drawer closed with minimal movement on your part. Now, there's less of a worry about your ice cream accidentally melting.

EasyFreezer™ Pull-Out Drawer
This drawer opens and closes smoothly—even when fully loaded with all your frozen favorites.

EasyGlide™ Glass Shelves
If you're in a hurry, pull these shelves out smoothly for quick access to items in the back.

Easy Reach™ Door Design
A single door gives you access to the food within.

ENERGY STAR® Qualified
Save money while conserving energy. These refrigerators meet the guidelines for energy efficiency.

Exterior Beverage Dispenser
Keep your favorite liquid refreshment perfectly chilled and ready for a glass. There's more than enough to share with a refillable dispenser that holds 3 liters. Plus, it's made from BPA-free, non-toxic plastic.

Factory-Installed Ice Maker
Have it on the rocks. A factory-installed ice maker stocks your freezer with cubes.

Fast Freeze Setting
Freezes large amounts of food quickly and efficiently. The freezer runs almost continuously to provide freshly cooled air to drive the freezer temperature 10 degrees colder than the lowest setting.

FastGrab™ Organizer
Found in the door, this organizer frees up shelf space by holding up to six cans, bottles or small containers.

Filter Status Indicator
You'll always know when the time is right to change your water filter.

Free-O-Frost™ Operation
Keep the freezer frost free so you have one less task on your to-do list.

French Door Refrigerator
The convenience of a bottom-freezer with the stylish doors of a side-by-side. Perfect for any kitchen.

FrontFill™ Dispenser
Quickly fills tall containers with filtered ice or water. It even dispenses ice and water together for even faster refreshment.

Gallon Door Storage
Now there's a perfect place for those gallons of milk, 2-liter bottles of soda and containers of juice—or whatever quenches your thirst.

Garden Fresh™ Crisper Drawer
When your garden has grown, this humidity-controlled drawer helps keep fruits and veggies fresh for longer.

Glide-Out Wire Freezer Basket with Quick Split™ Organizer
Now, it's easier than ever to keep frozen favorites organized, thanks to this freezer basket system.

Integrated Door Handle
Handles become part of the door's design, creating a smooth and stylish appearance.

PUR® Water and Ice Filter
Consider your thirst quenched. Enjoy glass after glass of great-tasting, filtered water and ice right from your refrigerator.

Removable Wire Freezer Shelf
Fit all your frozen favorites, thanks to this wire shelf. It helps keep your freezer organized and can be taken out for easy cleaning, reorganization or to fit something really large.

Reversible Door Swing
Select refrigerator and freezer doors can be adjusted to open from the left or right.

Slide-Out Plastic Freezer Basket
Never lose another chicken breast. This basket slides out so you can easily find what you are looking for.

Snack Drawer
The search for a snack is over. This drawer keeps your favorites in one spot.

SofSound™ Sound Package
Helps keep the sounds from the refrigerator from interrupting your life. Too bad it won't work for telemarketers.

Spillsaver™ Glass Shelves
Keep small messes from becoming big problems. These shelves help contain spills, stopping them from going all over the place.

Temp Assure™ Freshness Controls
These easy-to-use controls put consistent temperatures right at your fingertips.

Up-Front Temperature Control System
We've moved the temperature controls to the front of top-freezer refrigerators so you don't have to reach over bottles and jars to change the settings.

Wine Rack
This convenient rack provides storage for five full-size bottles of wine.

Refrigerator Installation Note

To insure proper ventilation, allow for ½" space at the top and behind the refrigerator. If the refrigerator has an ice maker, please allow extra space at the back for water line connections. When installing the refrigerator next to a fixed wall, leave 3¾" minimum space between the refrigerator and the wall to allow the door to swing open.

Cooking Glossary

Auto Cook
Heats frozen entrees, beverages, bacon and instant rice with the touch of a button.

Auto Defrost
Effectively thaws food according to weight for meals in a hurry.

Auto Reheat
Preset programs reheat items like a dinner plate full of food or a slice of pizza. Who needs "fast food" when you've got a microwave?

Charcoal Odor Filter
Helps pull cooking odors out of the kitchen.

Clever Combo Cooking Center
Pairs a range and over-the-range microwave to centralize your cooking.

Continuous Grate
This additional grate fits between existing burner grates, creating a single surface for pots and pans. It's a great place to rest them when cooking is complete.

Control Lockout
Locks controls so little fingers can't turn on the range or the microwave oven.

Convection Cooking
Pull a fast one. Bakes food in less time than a standard oven, thanks to a fan that evenly circulates the heated air.

Cooking Complete Reminder
A tone sounds to remind you that the food is ready.

Custom Broil
Program the broiler accordingly. Set the temperature in five-degree increments. Choose higher heat for meat and lower heat for delicate desserts.

Custom Program Option
Program a setting on the microwave to accommodate your favorite food.

Delay-Bake Oven Control
Set the start time for maximum convenience. This control lets you program the oven to be ready when you are.

Dual Radiant Element
Match the element size to the size of your pot or pan to help food cook evenly.

Easy Touch Electronic Controls
These easy-to-use oven controls put programming power at your fingertips.

Electronic Clock with Timer
Not only does it indicate time, it provides a timer so you can keep track of what you're cooking.

Element On/Hot Indicator Light
Keeps burns at bay, letting you know when the cooktop is both on and hot.

Exterior Ventilation
Sends heat and cooking odors to the outside of your home for a kitchen that smells great.

Extra-Large Oven Window
Helps you keep track of dinner without having to open the oven door.

Hidden Bake Element
It's under the surface of the oven floor, making the oven floor easier to clean.

Hidden Vent
Ventilation performance that's sleek and easy to maintain. A charcoal odor filter eliminates cooking odors.

Interior Oven Light
Shines a spotlight on your food as it cooks, making it easier for you to watch the progress.

Keep Warm™ Setting
Maintains the temperature of finished food without cooking it further.

Large Capacity
Over-the-range microwaves easily hold a 9" x 13" casserole dish.

Microwave Turntable
Automatically rotates food in the microwave. On some models, the turntable can be shut off.

Microwave Wire Rack
Use the wire rack and the turntable to heat two plates at once.

More/Less Adjust
If you need to, this lets you tweak cooking times while the microwave is in use.

Porcelain Broiler Pan
Effectively drains juice and grease from whatever it is you're broiling. This handy pan comes included with select models.

Rapid Defrost
Quickly defrosts up to 1 lb of food in the microwave.

Sealed Surface Burners
Keep spills from running into the burner.

Self-Cleaning Oven
Let the oven do the dirty work. Select models feature adjustable heat levels, while others can fluctuate between "high" and "low" heat.

Sensor Cook/Reheat
Monitors humidity and automatically adjusts cooking time so food is cooked or reheated, but not overcooked.

Spillsaver™ Upswept Cooktop
A smooth, seamless surface contains spills for easy cleanup.

Temp Assure™ Cooking System
Keeps temperatures consistent with a preheat cycle and dual use of the bake and broil elements.

Touchmatic® Control System
Program your microwave with ease, thanks to this simple key pad.

Towel Bar Door Handle
Spills can strike at any time, so hang your dish towel on this handle and be ready.

NOTE: Not all features available on all models.

Dishwasher Glossary & Dimensions

Antimicrobial Component Protection
Built into the silverware baskets during the manufacturing process, it helps inhibit the growth of stain- and odor-causing bacteria.

CleanPlate™ Wash System
The CleanPlate™ wash system uses high water pressure and high water flow to power off those leftover bits from breakfast, lunch or dinner.

Control Lockout
Locks controls so little fingers can't turn on the dishwasher.

Delay Start
Wash dishes according to your schedule. Program the dishwasher to run during off-peak energy use hours or when you're away from the kitchen.

Electronic Controls
Flat controls keep cycle selection simple and wipe clean with ease.

ENERGY STAR® Qualified
Save money on your utility bills. These dishwashers meet the guidelines for energy efficiency.

Heated Dry
An internal heater accelerates the drying process, removing excess moisture so you can forgo the dish towel.

High-Temperature Wash
Turn up the heat. With the High Temperature Wash option, a heater boosts the water temperature during the wash cycle. Plus, an extra rinse is added for enhanced cleaning and drying.

Light Item Clips
Clips help hold small items in place so they're easy to locate and quick to store. If only finding your keys was this easy.

Low Rinse Aid Indicator
A friendly reminder that your dispenser needs to be refilled.

Plate Warmer
Is it warm in here? You bet. This cycle heats your plates before a meal. Your dinner stays at the perfect temperature when served on toasty plates.

Quick Wash Cycle
Rapidly clean lightly soiled items like glassware.

Rinse Aid Dispenser
Automatically adds a measured amount during the wash cycle, reducing the potential for spots on your dishes.

Rinse Only Cycle
If they're just dusty, this is the only cycle you'll need. It forgoes detergent, using water to freshen things up.

SofSound™ I Sound Package
The SofSound™ I sound package ensures that the dishwasher won't interrupt your life. Too bad it won't work for telemarketers.

Tall Tub Interior
Holds more dishes and provides more room for items that are too big to fit in a standard dishwasher tub.

Twice as Nice™ Silverware Baskets
Wash more utensils at once. Move these baskets from either rack to the door (select models) for increased loading flexibility. Plus, built-in antimicrobial component protection helps inhibit the growth of stain- and odor-causing bacteria on the baskets.

Laundry Glossary & Dimensions

Antimicrobial Component Protection
Select components in Amana® top load washers have been treated to resist the growth of stain- and odor-causing bacteria.

AutoDry System
Monitors drying temperature and dryness level so you don't have to worry about your clothes getting cooked.

Automatic Temperature Control
Senses and adjusts the incoming water temperature for more consistent cleaning.

Clean Washer Cycle
Use the Clean Washer cycle monthly to help remove detergent residue from inside the washer. Just add a cup of bleach—or for a deeper clean, Affresh® washer cleaner—to make your washer sparkle.

Deluxe Dual Action Agitator
Rolls clothing through the bottom of the wash basket for a thorough, even cleaning.

Drum Light
Improve the view. This light helps you see everything clearly as you load and unload.

Touch and Go™ Electronic Controls with Cycle Indicator Lights
Know just how much time is left before the cycle is done. The control panel indicates both cycle selected and time remaining.

End-of-Cycle Signal
You'll hear the end of it. A signal lets you know when the cycle is complete.

ENERGY STAR® Qualified
Save money on your monthly utility bills. ENERGY STAR® qualified washers use less water and energy and that puts more spending money in your pocket.

EvenSpin Vibration Control™ System
A 5-point suspension system stabilizes the wash basket during the wash cycle for reduced vibration and noise.

Extra Rinse Option
Rinses soil and detergent thoroughly from clothes, minimizing irritation for those with sensitive skin.

Stainless Steel Wash Basket
Resists scratches and rust to help prevent the staining of clothes.

Super Capacity
Clean and dry more clothes in fewer loads, meaning less time spent in the laundry room.

Variable Water Levels
Wash smaller loads without guilt. Variable water levels reduce water waste by matching water level to load size.

White Porcelain Wash Basket
A smooth porcelain surface resists scratches and odors.

Wide-Opening, Reversible-Swing Door
Quickly and conveniently load and unload clothes. Reversible doors create added installation versatility.

Wrinkle Prevent Option
Put a stop to wrinkles. An extended tumbling time helps prevent dry clothes from developing those pesky creases.

Refrigeration accessories

1. REPLACEMENT WATER & ICE FILTER (SEE PRODUCT SPECIFICATION CHARTS)
   Replacing your refrigerator water filter every 6 months, or when indicated by the filter system, helps ensure that clean, fresh-tasting drinking water is always available.

2. ALL-PURPOSE APPLIANCE CLEANER #31682
   Cuts grease and grime for powerful, streak-free cleaning. Cleans all surfaces, kitchens and other areas.

3. COPPER WATER SUPPLY KIT #8003RP
   A 15' copper water line, saddle valve, coupling and tape are part of a kit that attaches the automatic ice maker or dispenser to your home's water supply.

4. STAINLESS STEEL CLEANING WIPES #8212510A
   These wipes are great for all stainless steel surfaces and convenient for quick touch ups. Spills and grime wipe away in a jiffy from appliances, sinks and even cookware.

5. REFRIGERATOR DEODORIZER #8171398SRB
   ICE CUBE & FREEZER DEODORIZER #4392894SRB
   These deodorizers help absorb unpleasant scents. It's easy—just place inside the compartment. Contains high-absorbency activated charcoal.

6. CONDENSER COIL BRUSH #4210463RW
   This brush easily removes cobwebs and dust from the coils on your fridge to help it continue running at peak performance.

7. INDUSTRIAL WATER SUPPLY HOSE #8212490RC
   Pump water to your fridge with this industrial supply hose. A 7' braided hose provides an alternative to copper tubing.

Cooking accessories

1. GAS HOOK-UP KIT
   #30-48KITRC
   This kit includes everything you'll need to safely install your gas range—stainless gas connector, fitting, pipe thread sealant and a leak test solution.

2. GAS GRATE & GRILL CLEANER
   #31617A
   Clean grease, grime and food stains off your grill—indoors or out. This easy-to-use cleaner works great on porcelain, cast iron, chrome or glass surfaces. It also removes mineral deposits, rust, lime scale and soap scum, so use it all around the house.

3. GOURMET GRIDDLE
   #4396096RB
   Use this non-stick griddle on gas and electric cooktops. It fits over two burners to expand your capacity for pancakes. And it heats quickly to cook evenly.

4. PORCELAIN-COATED BROILER PAN
   #4396923RW
   This broiler pan features a porcelain coating that helps it drain easily. Smoke and splattering are minimized, making cleanup easier.

5. RUST REMOVING POWDER CLEANER
   #W10278629
   This heavy-duty powder cleanser works with mild abrasives to clean hard surfaces and appliances. Use on stainless steel, porcelain, tile, fiberglass sinks and tubs, fixtures and copper pans.

6. RANGE POWER CORDS
   6', 4-WIRE, 240V, 40 AMP #PT600
   4', 4-WIRE, 240V, 40 AMP #PT400
   4', 3-WIRE, 240V, 40 AMP #PT220
   These industrial-grade cords are electrifying. And that's exactly what you need them to be. Successfully hook up your electric range and you'll have that pizza made in no time.

Dishwasher accessories

1. SMALL ITEMS BASKET #3370993RB
   There's no need to fish for small items in the bottom of the dishwasher. This basket keeps your littlest dishes in one place from cycle start to finish.

2. HEAVY-DUTY DEGREASER #31552A
   This heavy-duty cleaner is effective on the toughest grease, oil and burned-on spills. Use to clean burners, grates, drip pans, stove and barbeque grills as well as vent hoods and filters.

3. DISHWASHER INSTALLATION KIT #W10278636RC
   Get hooked up with this all-inclusive kit. Tape, a strain relief bracket and 3/8" brass compression fitting with a 3/4" brass swivel gooseneck fitting are all there so you can get washing right away.

4. WATER SUPPLY LINE #4396897RW
   Make sure your dishwasher is getting enough of its most essential ingredient. Check your hose every so often. If it needs to be replaced, this 6' braided hose is your best bet.

5. STAINLESS STEEL CLEANER & POLISH #31462A
   Keep it sleek with a cleaner that makes stainless steel surfaces bright and shiny. This non-abrasive formula works wonders on your appliances, sink and cookware.

6. DISHWASHER RACK REPAIR KIT
   WHITE #4396838RC
   GREY #4396840RC
   Easily cover small cuts or exposed portions of the rack. Plus, this kit includes rack tip tines for an appearance that looks like new.

7. AFFRESH® DISHWASHER & DISPOSAL CLEANER #W10282479
   Even the dishwasher needs a little cleaning. Natural food acids help remove soap scum and stains while minimizing the discoloration caused by water impurities. Use it monthly for best results.
